

EDUCATION

B.E CSE(Cybersecurity)	Sri Eshwar College of Engineering	CGPA : 7.5 (upto 2nd Semester)	2024-2028
HSC	Vel International Public School	75.0%	2022-2024
SSLC	Vel International Public School	78.8%	2021-2022

Internships

Cybersecurity Intern – Infoziant (OPC) Private Limited

Worked as a cybersecurity intern where I developed a Capture The Flag (CTF) platform to simulate real-world security challenges and enhance practical learning. Gained hands-on experience working across both cloud and on-premise environments, focusing on building and securing systems. Contributed to solving real-world cybersecurity problems through network monitoring, and implementation of secure design practices in application and infrastructure domains.

PROJECTS

NetDictator – Cybersecurity Monitoring & Control System - [Link](#) 2025

Monitors network activity and detect sensitive data exposure using real-time traffic analysis. Applies automated protection actions such as encryption and data masking to secure critical information

Tech Stack: Python, Flask, Network Monitoring, Rule-Based Detection, Encryption Techniques

DoS Detection – Network Security System - [Link](#) 2025

Identifies denial-of-service attacks by analyzing abnormal traffic spikes and connection patterns. Implements threshold-based detection with real-time alerts and logging for attack mitigation

Tech Stack: Python, Socket Programming, Traffic Analysis, Logging Systems

OmniSec – Multi-Cloud Security Monitoring System - [Link](#) 2025

Monitors multi-cloud environments to detect misconfigurations, unauthorized access, and threats. Provides centralized dashboard with alerts, risk assessment, and security recommendations

Tech Stack: Python, Cloud APIs, Rule-Based Analysis, Logging & Monitoring Systems

CERTIFICATIONS

Microsoft Azure (Udemy) 2026

PythonProgrammingMasterclass (Udemy) 2025

Mastering Data Structures and Algorithm using C and C++ (Udemy) 2025

Cloud Fundamentals (AWS ACADEMY) 2024

CODING PROFILES

SkillRack: Solved 575+programs

Codechef: Solved 60+ programs

Leetcode: Solved 100 programs

ACHIEVEMENTS

Achieved first place in paper presentation at Hindustan college of engineering

3rd in intra college hackathon at Sri Eshwar college of engineering 2025

3rd in Mini project expo at Sri Eshwar college of engineering 2025

TECHNICAL SKILLS

Cloud Platforms: AWS, Azure

DevOps & Containerization: Docker, Podman, CI/CD Concepts

Programming : Python, Java, C, C++

Tools & Platforms: GitHub, VS Code

Core Concepts: Data Structures & Algorithms (DSA), Operating Systems, Computer Networks
